Northern Skies District 2021 Mission of the Year

Mohawk-Ahmeek United Methodist
Church

120 Stanton Ave.

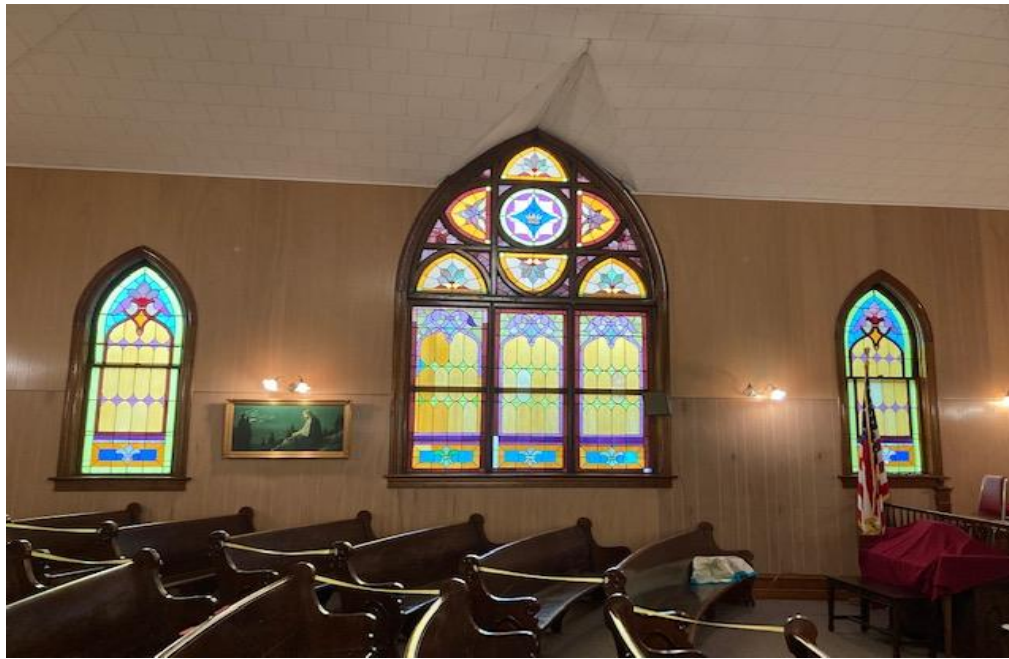

Mohawk, MI 49950

The History of Our Church:

The Mohawk Methodist Church began in 1889, after a number of English families moved into the area from the Central Mine location in preparation for the opening of the Mohawk Copper Mines.

The church was completed in October 1904, at an estimated cost of \$3000.00.

The first official public worship service was held on February 12, 1905.

Thru the years, the church has remained a viable place of worship. We have the distinct designation as the only United Methodist Church in Keweenaw County, and also the most Northern Methodist Church in the Conference.

On August 13, 2005 we had a wonderful celebration of our 100th Year Anniversary. It was attended by many people, both from the congregation and general public.

Our Goal:

In the summer of 2020 we had major roof issues that needed immediate repair. The cost of that unforeseen project affected our finances.

Our current project has a proposed total cost of \$16,500.00. We need to repair and repaint the frames around our stained glass windows, replace rotting siding in areas, tuck point the old sandstone lower level windows frames, and if possible paint the exterior of the church.
